A composer and educator who divides his time between the United States and his native Israel. Wolman creates music with technology and for instruments with two distinctive features: first, a subtle and complex relationship with popular culture 5 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Soundscapes Details: Amnon Wolman is a composer and educator who divides his time between the United States and his native Israel. Wolman creates music with technology and for instruments with two distinctive features: first, a subtle and complex relationship with popular culture and second, a concern for the dramatic nature of sonic evolution. In this conversation with Ben Neville, Wolman discusses his romantic compositional techniques and reveals the unusual nature of his introduction to computer-based music.
