"A quintet of musicians recalling the new wave movement of Greek music in the late '60s and early '70s. Expect a lot of beautiful bouzouki and poetic lyrics." - The Boston Globe 12 MP3 Songs WORLD: Eastern European, WORLD: World Traditions Details: Several years ago, we came together to express ourselves through music and lyrics and to search for that poetic vein that runs deep through the Greek soul. Our first CD, "A Stroll Through Our Dreams", is a compilation of songs about people, places and events that crossed our paths and left an everlasting impression in our lives. Somewhat autobiographical, the CD builds the bridge between the traditional and more contemporary Greek music styles and seeks to connect the past to the present, through poetry and storytelling. We feel that it is every generation's duty to pass its stories to those following and to share them with their contemporaries; thus, we wanted to share this part of ourselves with all of you. Most importantly, we wish for this recording to be a cultural bridge for all "Neophytes" of Greek music: we put forth great effort in translating our lyrics, so you can follow our songs and find something in them that hopefully touches you deeply. And if you do, then we in "Journey to Ithaca" have accomplished our goal and consider your enjoyment our greatest reward.
