An extremely hood album with bangin beats and lyrics that everybody can feel. 13 MP3 Songs

URBAN/R&B: R&B Rap mix, HIP HOP/RAP: Alternative Hip Hop Details: My name is N-FO, I'm an artist, producer, and CEO of a record company known as "Forever Rise". My love for music is extreme. Music has been a part of my life all my life. I made my first beat at the age of eight in my uncle's studio. From then on music has been an everyday thing for me. I put my all into my music, and I think that is one of the reasons why my sound is so unique. Music is all I had at one point in my life and is still one of the things that I can count on to help me think when I feel like I'm in something too deep. If I had to put myself in a category, I would say, "It's everything that is musical". What separates me from the rest is my ability to distinguish the differences in sounds, you see I believe because of the emotional impact music has had on me that I have an "ear" for it. I use to perform at talent shows and send out demos of my music to different labels. I didn't get a lot of responses, except from the streets. So I figured I had to start my own company. I worked hard, sold beats, and did anything I could to get the money needed to put my project out. Every dime I had or made I invested in myself. So here is my biggest accomplishment thus far. Hop in your whips(cars) and turn your beats up and get ready to hear something that is different from the rest but somehow seems so familiar.
