Crystalline guitars woven into a dynamic mix of stratospheric female vocals, understated drumming and stinging bass lines. 5 MP3 Songs ROCK: Modern Rock, POP: British Pop Details: Some notes about this EP. Rather than have this collection of songs languishing at the bottom of a drawer somewhere, I thought I'd release them into the 21st Century with a view to testing out the new "digital wave". They are presented here as 5 tracks played with fire and skill - all professionally recorded and mastered - and sounding very fresh in 2005! Let me know when you think they were recorded. Oh, and please take the time to write a review! Personnel are: Sally Blisset on vocals, Paul Maguire on bass, Mark Mason on drums, Peter Maguire on guitar. Engineered by Adam Van Rhyne and produced by Peter Maguire. All tracks are available for download, as a collection or individually from iTunes.
