Rock, pop, radio friendly australian music simple guitar riffs embellished with classic melodies 5 MP3 Songs POP: Power Pop, ROCK: Modern Rock Details: Tall Order is a four piece band which resides in Australia and has been together for two years. We have recently played a successful EP launch in our home town of Melbourne doing what we do and that is to ROCK!!!! Having had the experience of playing in the U.S. (under a different line-up) Tall Order plan on taking their music off shore in the near future with the belief that the music will appeal to many more listeners outside the land of OZ. Hey, we love you guys in the U.S. because you are so passionate about rock music (and other styles of music too!!) and you are not afraid to show it, but we are also looking forward to enjoying memories in Europe and Japan. Let's face it, we just love to play, any destination will suit us fine! Hope you like the EP, we are currently working on the website so we will have more for you to listen to you shortly but check us out at tallordermusic.com
