A Guitar slingin' Blues instrumental power trio with touches of Surf and Exotica. 12 MP3 Songs BLUES: Guitar Blues, BLUES: Rockin' Blues Details: With a deep respect for the great guitar instrumentalists who've burned their wildly imaginative axes into vinyl, The Black Shadows have acknowledged the past by stepping into the future with their own special blend of "Blues" that combines the rapid fire riffs of Dick Dale, the pure raunch of Link Wray and the tasty licks of Freddie King. Named after the infamous Vincent Black Shadows motorcycle of the 1950's, The Black Shadows, who hail from Hollywood California, consist of Robert Mearns on guitar, Andrew Houseman on bass and Dale Daniel on drums. BlueXotica, (can anyone think of a cooler title?) is The Black Shadows first CD release and a stunning one to say the least. Featuring twelve original instrumentals all played in the band's inimitable style of "Blues", "Surf" and sounds that "Twang The Riff Fantastic", BlueXotica brilliantly captures the spirit and recklessness of every teenage kid whose ever picked up a guitar. It's "Rock N' Roll"!
