"The Hottest UNDERGROUND Hip-Hop ALBUM of the YEAR." Don't sleep on it. 17 MP3 Songs HIP HOP/RAP: Alternative Hip Hop, HIP HOP/RAP: Hardcore Rap Details: T R I L Y O N Born in Philly, but raised on both coasts... TRILYON re-captures the passion we lost in Hip-Hop since the commercialization has weakened the art form! Born Joseph Carson, TRILYON somehow takes you back... but moves you forward... in the same breath, with his precise and lyrical word play! TRILYON has been writing and producing for most of his life and began seeing his hard work pay off when he landed a deal with MCA Records (w/Jeff Redd, former VP of Urban) just a few years back... Shortly after aligning w/MCA, TRILYON learned that the label was in turmoil and folded shortly after. Discouraged, but not defeated, TRILYON partnered with his manager, Zeek and main producer, King Penn to form OWNERSHIP RECORDINGS. TRILYON recently finished his debut album entitled "EPIC" and plans to release his efforts Independently in the Summer of 2005! "EPIC" is a potent 17-track album that covers an array of TRILYON's life and experiences, both personal and "Industry" based! Short term goals for TRILYON are to obtain a P&D Deal for the OWNERSHIP brand to strengthen his hot debut album, "EPIC." Long term goals include becoming a milestone in the Independent Music Revolution that is destined to take place, with so many of the major labels closing and consolidating! TRILYON: "EPIC" "The Independent Revolution starts NOW!"
