This is the edition he has done especially for children between age 5 - 15 to resolve the long standing problem which every family faces to develop and find the right hobby for their children . He called this CD " The Ugly Duckling " which will be the dancing magic for your baby and for you as well ... At your hands there is a piano version he made for children , as a aducational piece of art . This is a short version , with the orchestra it will be much longer . The classical ballet " The Little Swan " will be an hour and 25 min. long in 2 acts . The composer is looking for the impresario who will provide a certain level of financing on this project , so the composer needs only 15 - 17 months at least to finish all the orchestration , because on this CD " The Ugly Duckling "you can hear only 11 ballet suites , but it will be 17 ballet suites , which will be included 3 waltz and 3 more suites .
