ELECTRONIC: Breakbeat/Breaks, ELECTRONIC: Ambient Details: A-ux is deeply interested in experiencing emotional and surreal music. Inspired by the music of Warp artists, he sets out to capture some of that energy and intensity with electronics and computer. From an early age, his classical background in piano and his experimental attitude allowed him to achieve a good balance between musical and technological aspects. While growing up with a diverse musical style, he tends not to draw upon solely on one influence. From Debussy, STP, Boards of Canada, his pieces attempt to be timeless and distinctive. .
