I plan to keep it in motion over the next several months!!! INK 19 (Music Arts Review)- "Unlike most of his neo-soul cohorts, though, Cat isn't really heavily influenced by hip-hop. His sound is utterly and completely smooth. It's a late-night breeze undulating out of your stereo with the man's falsetto pirouetting along the soundwaves". C.Mack/SYNC Productions (Concert Promoter representing The Marley Brothers/The Isley Brothers/Anita Baker/Tool/Will Smith and others)- "Cat is wonderful. I know from my experience in the [music] business that there is a star in his music and personality". THE MONTCLAIR TIMES- Cat melds and loops a plethora of soundscapes through the use of live guitars, keyboards and samples. The music switches easily between dance hall classics and funky tunage.
