Psycho-active blues rock music for stimulating your neurons and bringing you JOY. 12 MP3 Songs

ROCK: Classic Rock, BLUES: Electric Blues Details: Corby won the National Jimi Hendrix Electric Guitar Competition in Seattle, WA, in the 18-and-under division at 17. His old school roots include Jimi Hendrix, John Coltrane, Thelonius Monk, Stevie Ray Vaughan, Cream, Led Zeppelin, Chris Cain, Robin Trower, Howling Wolf, Buddy Guy, Albert King, Eric Dolphy, The Yardbirds, and Blue Cheer. Now 24, this guitar virtuoso/singer/songwriter lives physically near Santa Cruz, CA, but dwells musically in a soul-stirring and mind-bending space - a world where influences of past musical giants deeply merge with his own unique Presence. Corby Yates Band, a power trio, explore these deep and varied heavy rock and blues roots on this CD. They've enjoyed the opportunity of performing with many great artists and bands including Robin Trower, Johnny Winter, Indigenous, John Lee Hooker, Cheap Trick, The Mermen, The Tubes, Chris Cain, Robben Ford, Tinsley Ellis, Joe Louis Walker, and Jimmie Vaughan. Blues was the original alternative music. And since rock and roll's rebellious beginnings, much of the best in rock music has evolved from those seminal blues roots. Corby Yates Band plays tunes written to stimulate your neurons and hopefully bring you Joy. And you really should have this CD clutched in your sweaty palms, or hot little hands - whichever description fits you best. So experience the new music! Can you say psycho-active blues/rock?
