Denny Lira has a edgy acoustic rock sound that has hooky melodies all over the place 16 MP3 Songs
ROCK: Folk Rock, ROCK: Acoustic Details: Denny Lira was born and raised in Southern California with those young dreams of being a firefighter, football player, underwater welder, and then finally a musician. "I guess the music stuff stayed with me ever since the folks bought me my first guitar in third grade...since then I never kicked the habit." Along with going to school Lira's involvement with writing and performing remained a constant, and with school almost a wrap he felt his music career was just beginning. Lira continues to write and play, performing solo, and sometimes with a band. Not too many things get under his skin, but one thing he thinks about is his own failure to speak out when things don't sit well in his mind. "We all surrender to the obvious, Lira notes" "...it's nice to see when people can look at things with bigger eyes." Lira plans on working and then traveling across the states to play wherever people gather, so perhaps he will take his performance to a venue near you, and you too can experience the vibe of his live emotional performance.
