Details: Dept. of Energy Biography: In this day and age of reality music shows dictating who the real talent is and who we should all listen to (come on we've all seen at least one episode of Americas Next Top Whatever), it has become increasingly rare to find a band striving to create a complete album of substance rather than just one hit song. There was a time and place where record labels wanted bands to build and create lasting music to grow from one recording to the next to improve as musicians and performers. Dept. of Energy's second full length release Faster is a clear example that this belief still exists. "Faster" is a remarkable album created with urgency and passion that touches on subjects of love, loss, and the importance of truth. The songs can easily be classified individually as progressive pop masterpieces, however the real strength comes in the form of the album as a whole. Faster as a complete work combines unquestionable songwriting ability with indisputable musicianship and forces listeners to take notice to the fact that Dept. of Energy is more than just a band out of Seattle they are a great band out of Seattle. Turn it on, turn it up. Faster will be released January 20th of 2009 on Roam Records. Dept. of Energy: Robb Benson- Guitar/ Vocals Ty Bailie- Keyboards/ Organ Cassady Laton- Drums
