Henry Hermann and Deborah Osherow met in late fall of 2001 and began playing and creating music together in December. Henry, a life long multi instrumentalist and violinist turned fiddler was looking for an opportunity to compose his own music. Deborah, guitarist and chanter had been writing songs and chord progressions in the hopes that "someday a fiddler will come along and really enjoy jamming to this." Deborah's chord progressions inspired Henry to compose tender, moving, clever, and fun melodies and songs destined to become fiddle folk classics.
