Traditional hymns played in a relaxing style on the piano. 11 MP3 Songs GOSPEL: Contemporary Gospel, GOSPEL: Traditional Gospel Details: Much of Christian piano music today is technically good but not necessarily pleasant to listen to. After listening to many of those projects, Greg decided to record a CD that people will want to play over and over again--a CD that would touch emotions rather than just impress people with brilliant technique. As you listen to this CD, you might notice that it is technically difficult but you will not be focused on the technique. You will instead be focused on the beautiful melodies that many of us grew up with in our local churches. Completely arranged by Greg, this CD's strength is its beauty. It is the kind of CD that you will want to be playing when you need to relax. Greg Howlett has been playing the piano since the age of eight in churches. He currently lives in Monroe, Georgia with his wife, Marla, and four young children.
