East coast boot stomping music to get the blood and party pumpin', and the beer flowin'. 12 MP3 Songs  
ROCK: Ska, WORLD: Reggae Details: Hub City Stompers hail from the "hub city" of New Brunswick, NJ. Formed in the summer of 2002 in the wasteland of the seemingly "dead" ska scene, these necromaniacs romanced ska's rotted corpse, playing for the love of the music rather than the popularity of it, and formed a force to be reckoned with in the New Jersey music scene. Embracing various styles and eras from the 60's through the 80's, and adding reggae, jazz, punk and even classical influences, they manage to avoid a typical, formulaic ska sound and steer clear of cliché poppy ska lyrics. Hub City Stompers' line up consists of ex-members from bands such as Inspector 7, The Dehumanized, Tri-State Conspiracy, The Schematics, Foil, and Gotham City Swing. They have performed with bands including (but not limited to) The Toasters, King Django, Bigger Thomas, The Wretched Ones, Niblick Henbane, Eastern Standard Time and Streetlight Manifesto. Three of these bands are currently on the Megalith roster also.
