Dirty, dusty, leather-tough Texas Blues Rock. 8 MP3 Songs BLUES: Texas Style, BLUES: Rockin' Blues

Details: Joey Love hit the Texas Music Scene in 1995 forming the Blues Xpress and to date has two independently released CD's. After landing in the Texas scene from Pennsylvania in 1979 Joey was immediately sucked in by the blues all around him. Suddenly Texas Greats like The Fabulous Thunderbirds, ZZ Top, Stevie Ray Vaughan, Freddie King, Johnny Winter among others were screaming out his stereo as Joey literally locked himself in his room to learn this sound that overcame his soul. Now today it's embedded in his fingers and heart and shows with every sweet note that sings from his guitar. The band has been captivating audiences ever since and their talents have included them on a few compilation CD's, one for KNON 89.3FM radio in Dallas, TX and also on a compilation CD that was distributed with the Oct. 2000 issue of SPIN magazine. They have performed a variety of major events including SRV Memorial Ride Concert at Billy Bobs, the Dallas Montage Festival at Artist Square, the Wortham Blues Festival, Deep Ellum Main Street Festival, and a multitude of other festivals and venues as far North as Lincoln, NE. Appearances have also included, KDFW Fox 4's Good Day Dallas morning show, DaBlues and Deja Blues TV shows (UPN21), opening for a variety of national acts, and have traveled the state performing at clubs, festivals and private functions. Joey and the band doesn't rely on covers or classics but more on the strength of their original material and the powerful and soulful guitar that has faded in the music scene over the past few years. They mix their show with a blend of different styles not straying too far from the core of blues but enough to keep an crowd's attention and this is what only great artists can pull off with ease!
