Just the best of Rock. 8 MP3 Songs ROCK: Acoustic, ROCK: Modern Rock Details: Biography Below is our Bio, just details.. See us in concert, our sound is like the right potato chip, you will keep reaching for more. If you have an addictive personality don't go any further, you will be hooked! We are Krak'd (formerly the southern scuba divers). We've been with our current line up for the past six months, but Krak'd have lived for three years. Consisting of Darren Morey (rhythm guitar), Tanner Planovsky (drums), and Chaz Prymek (lead guitar). In early 2004, Prymek and Krak'd parted ways. This change forced Morey to step up to the plate and switch to lead guitar. In late 2004 Bassist Justin Workman joined Krak'd. He contributed to new material during his two month session with the group. In late December of 2004 Workman relinquished his position as Bassist to former rhythm guitarist Casey Putscher. This current line up stands. In early June of 2005 Krak'd auditioned a singer named Ben Criddle, after only one song we knew he was the singer that would take us where we want to go! Krak'd are a hard working rock band dedicated to rock and roll in its purest form. Krak'd are currently touring around the Salt Lake Valley, in promotion of themselves, and recording.
