A lonely bell tolls - echoing through the hillside. Angelic voices use rock melodies to move our spirits to a distant place - A place we have longed to visit, and yet find strangely familiar. Phases is 5 songs, 23 minutes. 5 MP3 Songs ELECTRONIC: Experimental, WORLD: Western European Details: Beautiful CDbaby recording artist Suncica Markovic teamed up with songwriter Kevin Frantz to produce this angelic / rock offering. A diversion from her popular, complex, and moving instrumental solo work, this CD blends Mr Frantz's classic rock influence with Ms Markovic's highly-trained classical music influence. The result is Lunarscape: Phases, 5 songs totaling 23 minutes, that seems to beg the questions: What if 5 Monks started a rock band? What influences would they have? Which instruments would be available to them? What message would they want to convey? The Lunarscape: Phases CD unleashes infectious basslines, angelic choruses, and haunting melodies that both calm, and excite, the spirit.
