An electronic approach to Gothic music. 11 MP3 Songs in this album (37:49) ! Related styles: ELECTRONIC: Industrial, ELECTRONIC: Dark/Terror/Speed-core People who are interested in Nine Inch Nails ohGr :wumpscut: should consider this download. Details: Four Point Five is the final cut version of the fourth album I've created. That's where the title comes from. This one is my favorite so far. It has a more refined and desirable set of timbres. It doesn't sound as cheesy. It takes us further into dark places. It sounds a bit like :wumpscut: without vocals. Only two of the songs on my album have vocals. I'm sad that the preview clips are as short as they are because I don't think it truly explains the full scope of each selection. My earlier work was more in the vein of trance and the neo-psychedelic, but I'm much happier with the darker and more harsh sound of this newest release. I hope you will enjoy it as much as me. almost forgot, here's a link to the metafix myspace page: myspace.com/metafix2 Be sure to add me to your friends list and drop a comment.
