Oooowwweeee... 8 MP3 Songs GOSPEL: Contemporary Gospel, GOSPEL: Traditional Gospel Details:

Hear a fresh new take on an old genre. This album stews songs together in a musical gumbo.

The n.l.y.m. (never lose your mind) began upon this uphill journey roughly about fifteen years ago. The musical staff has changed, evolved, and grown over the years. The group, more a family than anything, has also grown and evolved. Many ups and downs have been experienced along the way, but as with all things we pressed onward to bigger and better things. Just like any artist or group, many years were spent in the development process of this organization. Many sleepless nights were had, but we didn't give up. This is a testimony to all, that anyone who is willing to work hard and sacrifice for whatever goal they have can be successful. We have grown to the point that we now have children of members from the original choir taking on leadership roles and developing into the leaders of tommorrow. God Bless You for your purchase, or for just taking time to read this and be blessed.
