Great Barrier - Between Conflict and Resolution The theme is inspired by current world events and seeing a peaceful resolve. It continues the theme of all the barriers we as humans bring into our lives. The first CD "Between What is Real and What is Imaginary" touches on the barriers between continents in a travel log of places I've visited like Australia, New Zealand, Europe, China, Hong Kong, and Thailand. It takes you on an imaginary journey around the world. The second CD, Great Barrier - Across the Divide was inspired by my travels to the southwestern United States with it's native American influences. The divide refers to the division between all the cultures in America and how we've bridged them. You can also hear and purchase this CD from CDbaby. The track "Cairo" off of the first CD has also been released on the "Buddha Bar" compilation CD (Vol. 2) out of Paris and has sold over 350,000 copies worldwide. The Middle Eastern influences made for a special revisiting of that track on the new album with new rhythms and sounds. Paul Harlyn 186 Longview Ave. Celebration FL 34747 paulharlyn.com
