

Mp3 Ricochet Gathering - Okefenokee 2002

Berlin School style electronic music with plenty of sequences, electronics, effects, keyboards with an added touch of beats and percussion from the realms of psychedelic goa trance. 12 MP3 Songs
ELECTRONIC: Ambient, ELECTRONIC: Trance Details: This is the music of the Ricochet Gathering which took place in the Okefenokee Swamp, Georgia USA in 2002 (the third year). We called this electronic swamp music, but it really is Berlin School style retro EM featuring John Christian and Pete Ruczynski from AirSculpture (UK), Dave Brewer (USA), Bill Fox (USA) and Steve Schroyder (former member of Tangerine Dream) and Jens Zygar of Star Sounds Orchestra. Also guest musicians Howard Moscovitz and Greg Waltzer are featured. The music took a slight change from retro EM to include some more beats and guitar, so you'll find some percussion, gutiar and even an electric banjo mixed in. Star Sounds Orchestra plays ambient to psychedelic goa trance, and their influence is felt here. This modest 3rd gathering continued the Ricochet Gathering concept which has grown to a large list of reknown musicians and occurs each year in a different exotic location around the globe. - Vic Rek
