Born in 1950 a virgo brought up in the country on a dairy farm, where I learned to work hard every day. Became a top Rodeo rider and took on breaking horses and training and breeding racehorses. I learnt to sing at a young age singing at school, it wasn't till I got to the age of 16 that I started thinking about a career in professional entertainment. I entered many Talent Quests where I won. At 18 I formed my own band called the Trendsetters, for 15 years we played every week, then we dissolved so I formed another band called Odd Man Out me being the odd one, and for another 15 years we were booked 12 months in advance. We were the best dance band around. Proudly known as the best yodeller around I entered the Golden Guitar awards and won which is our highest award before entertainer of the year. So in 2003 I decided to make my first CD called Country At Heart which turned out to be a great success. So in 2004 I went to Nashville to make my next CD called Invisible Man absolutely fantastic all new songs written by American famous writers 5 of them went to the top 20 on the indie chart. I then produced a Christmas CD called Bruce's Xmas now coming up Christmas 2005 I have just released 3 more CDs for the new tour so look out for me in a town near you 2006 on tour NZ Australia USA England.
