Mp3 Bryan Free - Lust

DOWNLOAD HERE

Music to ride magic carpets to. 6 MP3 Songs ELECTRONIC: Pop Crossover, POP: with Electronic Production Details: Nothing remains the same, ever. The Lust E.P. evolved in the years that followed Bryan Free's debut album, "Poison I Drank From." As a songwriter, Bryan Free still combines piano and introspective lyrics. But now you hear aggressive beats and synth lines. They don't replace the saloon persuasion of the older days: they lie down with the flute and horn section. The E.P. begins darkly, and quickly moves into a transitory space that speaks of Lust and Love, if there is any difference. Bryan Free examines our desire to kick at, embrace, and hate the world; then says "it's cool," and plays a waltz. Nothing remains the same, ever.
