A combination of Pop and Inspirational Music. 15 MP3 Songs EASY LISTENING: Soft Rock, GOSPEL: Contemporary Gospel Details: This CD is dedicated to the Circles of Love that we all experience in our lives. We are surrounded and influenced by our families, friends, our relationship with God, and our experiences with the world around us. This project celebrates the joy and goodness that these relationships have played in my life. While listening, I hope that you will take the time to re-examine your own Circles of Love that provide support, love, and joy in your own life. I have been generously blessed with wonderful friends and a dear family who have taught me to close my eyes, inhale, exhale, and to trust God and those that care about me through each new experience that crosses my path. I am proud to share every aspect of this project; the writing of the music; singing; instrumentals; recording and mixing of music; photography; printing and prayers for a successful project have been contributed by people that have blessed my life as friends. To each and everyone of them I will be forever grateful. From beginning to end, this project has been a labor of LOVE. Byron
