CULTURE POP- An eclectic hybrid of world beat, pop and rap. Positive, conscious ANTI-GEORGIE lyrics. 8 MP3 Songs WORLD: World Beat, URBAN/R&B: R&B Pop Crossover Details: COLD JOON is the DEFINITIVE 'Anti-Georgie' band. Sad to say, Georgie has given us endless song ideas and lyrics to play with and expose his dangerous 7th grade IQ. However, we also remain positive and constructive and try to rebuild bridges with the confused, disappointed and alienated people of the world. In addition to 'Politi-Cold' music, we deal with issues of social justice, spirituality, sappy love and fun, Saturday night dance parties. Music to make ya move...and think. This CD, 'Gnu Improovd', is our second studio release from 2003. It has more of a pop influence than our first CD, 'Cold Djun', which emphasized traditional West African rhythms. It also includes a Tiger Woods rap song and our franchise hit, 'Buzz On'. Look out for the new Cold Joon CD, 'Urban Rhino' in May of 2006. Please visit our website, coldjoon.com, for more info and samples of our music, artwork and social mission. The site includes four videos, including our newest smash, 'Condi Gap-Tooth Arroz', a high-energy soukous song about Secretary of State, Condoleezza Rice...ya GOTS to see it!
