Powerfully moving music for environmentalists and animal rights advocates worldwide, wrapped up in blues, pop, new age and folk, and with a touch of the paranormal. 8 MP3 Songs POP: with Live-band Production, NEW AGE: New Age Details: MORGAN WEST announces the release of his new CD "Higher Self Sanctuary." This dynamic and moving collection of pro-environment and pro-animal rights music showcases Morgan's talents as a singer, songwriter and Nashville recording artist. And it does more! "The purpose of "Higher Self Sanctuary" has many facets," says Morgan, "in addition to being great music. It also exists to raise global awareness of the issues and choices we face concerning our Earth's environment." Morgan's definition of the environment is entirely encompassing..."It includes our world and all those who call this beautiful planet home. The animals, the people." From his no-holds-barred, anti-Gale Norton and anti-Big Oil political anthems like "Think Tank Blues" to the anti-hunting and touching tunes "No Killing Here Today" and "Christmas For The Animals," Morgan's music spans the gamut of the activist agenda. And "Maralyn" is a New Age ballad which focuses on the paranormal. It is nothing short of mystical beauty. "This song is intensely engrossing, the crown jewel of the CD," remarks Morgan. "When we recorded "Maralyn" -- which is almost eight minutes in length -- the players, the singers and everyone in the studio felt totally entranced by the spirit of the song among us. Even though she lived 1200 years ago, we joined with her presence in the here and now." That power and energy is experienced by each person who hears this incredible track. "Higher Self Sanctuary" is a work of art, putting into lyric and melody the feelings we share as caring human beings. A fine addition to your CD library!
