

## Mp3 Next Level - B.p.c.

[DOWNLOAD HERE](#)

A tight blend of hip-hop that hits all the right spots. What we are bringing to the table is a different sound of St. Louis. This album is guaranteed to have what YOU want. No matter what you're into, lyricism, tight beats or, feel good music...we got it. 12 MP3 Songs HIP HOP/RAP: Rap, SPOKEN WORD: With Music Details: As of lately, music has been on a decline. It seems like there has been very few quality albums in recent years. Long gone are the days when the music was treated as an art form and it seems like now, everybody wants to get behind the mic...BUT! Not because they have something to say BUT because people hear music that sounds like it took little to no effort and say to themselves I could have done that. The airwaves are saturated with music that sounds like it came from the mind of a child. Subconsciously, through this era of Rap, we are being trained to think in such a way that does not prepare us for the future. A world where money is worth more than the life that we live. A mind state that lacks unity, empowerment, and respect for those who struggled before us. THINK ABOUT IT. Watch who and what you listen to. Don't be the next fool. NEXT LEVEL is the beginning of a movement that will shift the direction in which OUR music is going. OUR music being the voice of the streets, the voice of a generation...a collection of voices speaking the truth minus the fabrication of glitz and glamour. NEXT LEVEL is a force that refuses to fall into the trap of blending in with the norm. However, it is a known fact that in order to break the system down you must first become a part of it. A challenge that we gladly accept and along the way, might face some regrets. But, if it takes that to make change, then it was well worth the journey. Ride with us! We promise to give you the best at all times and while you're with us, we will take you through the spectrum of music that represents WHO and what WE are about. Our mission, is to set a higher standard, with God's direction...and ultimately take music to the NEXT LEVEL
