Hear STARFISHERS Latest Record engineered and produced by Evan Frankfort who has worked with The Warren Zevon Tribute Album , The Wallflowers, Pete Yorn ,The Muffs , SugarCult and Swirl 360. 11 MP3 Songs POP: 80's Pop, ROCK: Progressive Rock Details: " There is nothing like the stage, It is Home and when we're not home we're not Happy" straight from the mouths of STARFISHER you get the idea that they are serious, SERIOUS!!!!!!!!!!!!!! now that's a little better. The four piece band is cohesive in ways that displays a magical sound that sometimes reminds listeners of 60's rock groups such as the Doors and 80's to present groups like U2 and Chili Peppers. The band consists of LION on bass/Percussion Woody on Vocals/Sax Sparks on Guitar/Vocals and Fix on Drums/Percussion but all that being said the album that they just recorded displays more than the live show instrumentation. The latest album by STARFISHER entitled "waiting for you" was produced by Emmy Winning Producer Evan Frankfort who just finished working on the Late Warrne Zevon Tribute album, along with Engineering/Producing credits with Sugarcult, MxPx, The Muffs, The Wallflowers and Pete Yorn. So far STARFISHER has just tasted the experience of showing the world what they have to give, and they are satisfied enough to stop. "The next few years of our Lives will be the stamping of STARFISHER on the world and that is a precious thing , STARFISHER will mold and bend and change through all the experiences given by People all over the World." No matter what your musical taste there is something in the Sound of this band that reveals itself to even the most Skeptical listener, and in this day and age of Big Time Promotion and cut Throat Marketing what is to seperate the Business from the Beauty of What just comes together at the RIGHT TIME.
