The Dials: 60's girl-garage, power-pop, a la 80's punk and roll powered with tubular tunefulness and beach party bombast. 6 MP3 Songs ROCK: Punk, POP: Party Pop Details: The Dials: 60's girl-garage, power-pop, a la 80's punk roll powered with tubular tunefulness and beach party bombast. The foundation is laid by the dynamic interplay of Rebecca's and Patti's epic bubblegum songs of disenchantment, frustration, and making out behind the grocery store. Add on top of that the degenerate barroom-floor sounds of Emily's junky genre-bending farfisa (is it Monoman or Steve Nieve? Who cares when it's this good?). Then tie it all together with Doug's ferociously flurried and smile-inducing fury on drums. Serpentine guitar B-52isms and Rezillos-worthy bass lines infused with raw Marshall crunch and total high-energy exuberance create a rock roll tsunami that'll blow your panties off.
