Smooth jazz fusion providing an innovative escape from the ordinary. 10 MP3 Songs JAZZ: Jazz Fusion, JAZZ: Smooth Jazz Details: Dear Listener: Welcome. This is a snapshot of some of the things I hear and feel. Feel was the most important aspect of this recording, the basis on which I made most of my decisions - from the song selections, to the choice of personnel. I wanted a team that would not only play the music well, but would also sincerely care for the project. I found that team. Everyone involved was a pleasure to have in the studio. It really was a very intense and playful experience, like being a kid again and playing with a new toy, or getting together with a bunch of your best friends and hangin' ...in the Playground. Enjoy the Rides. -T ***** LATEST REVIEWS!
