Very eclectic mix with continuity. Description: At times Melodic, Industrial, Ambient, Metal, Experimental, Elementary, Aggressive, Drum-n-Bass and Twisted Jazz. 23 MP3 Songs NEW AGE: Ambient, ELECTRONIC: Industrial Details: 'Moon' is from 2003 and was inspired by my Sisters passing in July of that year. 'To Love Sophia' is from Stevens Point. The style is best described as Eclectic with Continuity. There are Metal influences but there are also Jazz, Blues, Contemporary Aggressive, and Progressive influences as well. Earlier stuff included Electronic Experimental. That genre has been reintroduced in 2006 with the 11th cd titled 'Circus'. 'To Love Sophia' has won the top 10 weekly ten times at Broadjam under the categories of Metal, Experimental Electronic, Unique-Unclassified and Blues Rock!!! 'To Love Sophia' has carried two of the Top Ten on Broadjam for Wisconsin bands during the week of 12/3/06. 'Moon' is a sincere attempt and elementary in many ways but, so is its creator. Peace!
