Texas Country with Steel Guitar Fiddles 10 MP3 Songs COUNTRY: Traditional Country Details:

!!!!!!WORD IS GETTING AROUND!!!!!! Misty Records is proud to introduce the newest addition to our recording family, Wesley Ialacy. Born in Freeport, Texas, Wesley calls the Conroe area home now with his biggest fan, his wife, Joy. He got his first guitar when he was 4 years old and has been hooked on music ever since. He joined the FFA and formed a FFA Talent Team Band, competing in District, Area State competitions throughout high school. A few years later he met Rick Sousley and they formed the Texas Reign Band. For the next 10 years, the band opened for a Whos Who list of major country acts such as Perfect Stranger, Steve Wariner, George Jones, John Conlee, Gene Watson and Texas own Johnny Bush. And when Wesley wasnt picking, you could find him fishing, golfing or hunting...a few of the other passions in this artists life, along with remodeling and sprucing up the home place in Cut Shoot, Texas. Wesleys new CD, Word Gets Around, is being released nationally and internationally as we speak, and Misty Records, after releasing a sampling of this CD, is extremely optimistic about this wonderful country artist. We have received more airplay on this pre-release than we have on any other artist this year, says Don Jones/CEO Misty Records. With spunky tunes like She Wants To Kill Me Out On A Limb to beautiful selections like The Greatest Comebacks Look At Me, this is one CD you dont want to miss. And when this artist comes to your town, be sure and be there as you will be swept away by this gentle man with the smooth country voice. Sandy Samples, Wesleys friend and label mate on Misty Records had this to say about her fellow artist. I believe that God gives us gifts. You know like when you see George Strait, you know that he has one of those gifts. He sings with the greatest ease...like its a part of him...and he makes you feel like hes singing it just to you! Well, Wesley has that same gift. Plus he cooks a mean drunk chicken...ask him about it next time you see him! The fans are my greatest allies,

says Wesley. If I can bring them into the music so they can feel the same emotions I feel when performing the song, I will have managed to do my job. YALL COME AND SEE ME SOON!
