Details: The Astral Kitchen, formed in 1990 as a three piece band that had both punch, originality, witty lyrics, and best of all a good fun band. The project, which began as a live band playing the San Francisco Bay area, slowly evolved into a recording effort. This was due to the untimely death of the Bass player Mark Yeski. The two remaining members continued on to do other musical adventures in both Colorado, and in the Bay Area, and eventually realized that we were missing the music of the Astral Kitchen, and the interaction of creating music together. In the spring of 2001 we decided to put things back together in a way that more suited the needs of the remaining founding members. The band would no longer be a three piece, the music would include multiple styles and would involve many different instruments both percussive and string related. This of course gave the band a mature sound that the more sophisticated music listener could digest. The band however is not abandoning it's younger audiences, the live show will include some of the "hits" of the past and will lean heavy on a "musical troupe" type feel. The core of the group is five pieces, GTR, Bass, Drums, Kybd, Vocals. With high standards of musicianship. The new release "Dirty things" is destined to become a ASTRAL KITCHEN cult classic. There is a limited amount of the collectors series so get them here at CD Baby, cause when there gone they are gone.....
