[wrhapsodynepster tower music.msn.com/artist/?artist=40175739](http://wrhapsodynepster.towermusic.msn.com/artist/?artist=40175739) Baby Ray's debut, "Now What?" featured the underground single, "Ain't Nothin' Like The Town" which the Source Magazine (May 2000) called a certified Oakland classic. The Music video for "Ain't Nothin' Like The Town" was in a high rotation on The Box Music (Now MTV2) for seven months. The song N.I.G.G.A was inspired by the Tupac quote that the acronym stands for Never Ignorant Gettin' Goals Accomplished. Baby Ray took the message and created the street anthem with its infectious reggae groove. The title track "Now What" gives you sick production and a hook that rivals some of the greatest flow artist!!! Check out the review at [westside2000.cjb.net](http://westside2000.cjb.net).
