progressive, but not over the top. Melodic vocals and guitars with a smooth flare. 9 MP3 Songs METAL: Progressive Metal, ROCK: Progressive Rock Details: BlindSeven was formed as a group for us to write good music with a message. Don't get us wrong, we are not preachers and I am for all kinds of music. I believe there is enough "doom and gloom" in the world though, so why would we want to be just another band with that message. If you listen closely you will hear some things that may invoke some thought, make you mad, make you happy or make you think. All of these things are in the music, depending on where you're at in life. There is no secrets in the music, interpreting it in your own way is never wrong. BlindSeven is a Hard Rock/Progressive Metal band with member's that are from all walks of life, including a moron, a retard, an idiot, a clairvoyant, a pest, and an imbecile. These traits help keep the band one step ahead of the guys in white suits, always being able to use the insanity plea if ever caught. These 4 1/2 musicians came together for one reason, they are hoping they find out what that reason is in the future. In a bizarre twist, BlindSeven recorded their 1st CD a record label in hopes that they had good lawyers and a few extra dollars to spare for food and shampoo. All this adds up to some pretty potent sounds and some music you don't want to miss. Are you curious? So are we!
