harsh noise power violence 7 MP3 Songs ELECTRONIC: Experimental, ROCK: Noise Details: "Outside forces messing with your mind. Like a colossal octopus circuit-bending your brain cells, injecting them with nightmarishly death-shroud visions of being swung back and forth by piercing tentacles of liquid creep. Buzzing overtones zooming in on your neurons while tweaked bursts and hypnotic pulses drift and hover and eventually collapse into a mess of sick organs. All out mental mayhem. Eerie electronic brain scapes for cats growing up, having no cousins but still carrying the torches to Rome. A straightforward guide to panic attacks. " - CARLO AUDIOBOT
