... a foot stomping , spirited collection of barn burnin' rockers and soulful blues . 10 MP3 Songs BLUES: Rockin' Blues, BLUES: Texas Style Details: The straight ahead, hard driving, stripped down sound of rock roll and blues in the classic roadhouse tradition gets kicked into high gear with tasty guitar licks, memorable riffs, and a cast of groove oriented players. One listen and you're instantly transported to a roadhouse where the smoke is as thick as the smell of stale beer, sawdust covers the floor , neon signs line the walls, and you don't even care that your sleeves are stuck to the muck on the bar because the place is jumping to barrelhouse rhythm blues. It's in this atmosphere that Crixell (pronounced Crishell)cut his musical teeth as a kid in and around Texas and what he's captured so effectively on the tracks of "One Roadhouse Away", a foot stompin', spirited collection of barn burnin' rockers and soulful blues tunes. Having resided in San Francisco for the past 2 decades, Emilio handpicked this group of musicians from his long time Bay Area favorites." I was looking for the best but I also wanted to have fun in the studio and find guys who would add their own creative juices into the mix".
