Modern Americana alt-country folk rock music with just enough pop 10 MP3 Songs FOLK: Folk-Rock, COUNTRY: Alt-Country Details: If you like Ryan Adams, Jackson Browne, Joe Purdy, Elton John, Simon Garfunkel or Don Williams, then you are home. If you prefer something heavier, put your head through a wall. My name is Estes Shane Whalen, most people call me Shane (yes, like the movie). Ive been through things, Ive seen places. Im very visual. A pretty full moon is my beacon, it wakes me up at night and lays me down for the day. I dont ask why, I dont need to know, Im thankful some things are just that easy. Goodbye Mr. Redfish was and is. Its an album about things and places, not being home at heart but finding your way, anyway. My journey has brought me home, where things and places have changed. For the latest effort, I recruited my good friend Brian Wright to produce the record with his amazing band, The Waco Tragedies -- BWright, Sally Jaye, Jason 'Ace' Gonzalez, Fil Krohnengold, Willie C. Golden, Michael Starr and Deacon. We recorded every song 'live' in North Hollywood at Wagon Wheel Studios, under the flooding January rains, departing planes and warmth of Kentucky whiskey. If you listen closely, you just might hear the concrete talking. Special thanks to my mom and dads, BWright, Michael Starr, The Tragedies and friends, The Cave (Russell Cook Mike Vizcarra), Lurssen Mastering, kinghamilton, Chris Maughan, Robert Cappadona and Groove House Records for making it all come together. All Songs by Estes Shane Whalen Copyright 2008 My Own August (ASCAP) People who are interested in Jackson Browne Ryan Adams Joe Purdy should consider this download.
