Songwriter inspired by classic pop music from folk to blues to rock to modern. 12 MP3 Songs FOLK: Folk Pop, ROCK: Americana Details: "Rough Folk" is a must-hear experience... every track is a diamond in the, well, "rough"... the songs appeal to the ear, the head, sometimes to the feet, but always to the heart...

Hank Stone grew up in New York City, in the shadows of JFK airport and Aqueduct Racetrack. Played rock'n'roll in local bands, started writing songs and never stopped. Stopped performing in public for too long; came back out in 2001, discovered a great community of talented and supportive musicians on Long Island, resharpened his guitar skills and finally recorded his debut CD, "Rough Folk," which presents 12 varied but cohesive tunes, each produced by Tony DeStefano to bring out the song's true soul. Hank has long been an avid listener to all styles of music, and much of what he has absorbed is evident in these fine tracks.
