These songs were written by a working man about working men 15 MP3 Songs FOLK: Alternative Folk  
Details: These songs were written around the upper Clyde in the seventies. I used to deliver around Govan in Glasgow at the time and got to know some of the men who took over the upper Clyde shipyard to save it, which they did, and most of these songs were based on the stories they used to tell me about being a working man myself. I felt a bond and believed in their fight for justice, which is still the same to this day. Thanks for your time. People who are interested in should consider this download.
