Old-school bluegrass. Edgy and emotional. 12 MP3 Songs COUNTRY: Bluegrass, COUNTRY:

Traditional Country Details: In this return engagement, James Reams (The Kentucky Songbird) and Walter Hensley (The Banjo Baron of Baltimore) offer up, with the able collaboration of Jon (Baltimore Jonny) Glik, Mark Farrell and Carl Hayano (gotta get those last two boys some nicknames), a strong hand of songs and tunes, some originals, some traditional, some under-recorded gems and some drawn from unexpected places. Cut in one wild weekend, with all the musicians in the same studio at the same time and not a Pro-Tool in sight. Presented to you with all the edges intact and all the excitement raw. The bands self-titled first album, released in 2003, was nominated by the International Bluegrass Music Association as one of only seven nominees for its Recorded Event of the Year award. Heres what Richard D. Smith wrote in Bluegrass Unlimited about that earlier album: If youre tiring of the slick stuff and yearn for something straight-ahead, theres not a false bend or blend here. And if youre hungry for bluegrass music with more grit and less glitz, heres another heaping helping.
