

Mp3 Jimmy Raschel & Longshot - From Across The Tracks

FROM ACROSS THE TRACKS is the genuine article. A true mixture of R&B and Country with dash of cowboy. Just like the title implies, the styles all cross the tracks to make good ol' AMERICAN music. A must hear for all crossover music lovers. Singer/song 10 MP3 Songs COUNTRY: Country Pop, COUNTRY: Modern Country Details: Jimmy leaned his craft, singing and playing sax, at an early age up in Michigan where Southerners 'went North to get work', up where the Dixie Hwy ended. There, both white and black musicians brought their music, delta blues and country and became the ones with whom Jimmy first worked and formulated his musical prospectives. Jimmy loves to be funny and that sense of humor comes through along with a sort of 'tainted morality' reflecting real life. Since Jimmy's parents were interracial, he had the opportunity to experience both the black and white cultures up close and personal. This is one of the foundations of his greatest talent, songwriting. This veteran performer, who has performed in nearly all 50 states and a dozen foreign countries, hopes that somehow his music will inspire folks to see how our differences, blended together thoughtfully in a musical format, can show the beauty and strength of racial diversity.
