A collection of feel good rock, with elements of folky, sometimes bluesy, and other times country flares. 15 MP3 Songs ROCK: Modern Rock, FOLK: Modern Folk Details: I am a singer, songwriter from St. Paul Minnesota. I love writing music and producing it in the studio, it's such a high for me when the song comes to form and I get to listen to it for the first time. My first effort was 15 tracks on a cd called Love is Alive and then I was fortunate enough to produce another 15 on In the Moonlight's Ray. They are a collection of feel good rock, with elements of folky, sometimes bluesy, and other times country flares. I never geared myself towards any one genre, whatever inspiration had to offer- I opened myself to write and produce. Hope you enjoy listening to my tunes, thanks. John Hassinger
