An honest, soulful, and heartbreakingly simple, acoustic debut. 7 MP3 Songs FOLK: like Joni, COUNTRY: Country Folk Details: Pretty Mess is the first offering from Detroit Singer-Songwriter Maren Coleman, whose voice and songwriting have often garnered comparisons to Patty Griffin and Lori McKenna. Relatively new to the troubadour racket, Maren spent most of her early twenties doing the bartender thing while trying to figure out what the hell to do with her life. Although she had always loved to sing and once had ambitions of a career in musical theatre, she stopped writing and playing out sometime during her early twenties in turn for a more stable lifestyle. She went to school periodically; flip flopping majors, and tending bar to pay the bills. After a series of failed relationships and half attempts at going to college, Maren realized that the only thing she had going for her was the one thing she was the most afraid of pursuing her music. So one day she quit her job, picked up her guitar, and started writing. Written and recorded at home, Pretty Mess is an honest, bare bones debut that started out as a series of scratch recordings and developed into something more. It is as smooth as a polished stone and as rough as concrete. Her voice has that plaintive quality that makes you want to listen for hours and sing along. Her lyrics are simple without being trite. With no post-production to hide behind, Marens natural talent shines through on this debut release. "With a soulful voice and lyrics as vulnerable as a first kiss, this songstress will have you hooked from the beginning!" CYHM Press "Small in stature, large in heart and soul. Young in age, mature in life. Maren provides musical thoughts, smiles and tears from her days of experiences at both sides of the bar. Luxuriate oneself in her stories of despair and hope, of spirituality and melancholy, of loves lost and found, all from a sound that reflects as if an old timepiece has found a new home."
