

Mp3 Marty Rivers - Out Of The Blue

[DOWNLOAD HERE](#)

Looking for an album rich in Versatility? A unique blend of original contemporary and traditional country from this fantastic singer-songwriter. 11 MP3 Songs COUNTRY: Contemporary Country, COUNTRY: Traditional Country Show all album songs: Out Of The Blue Songs Details: Being born in a musical family, singer-songwriter Marty Rivers was drawn into music from a very early age by listening attentively to his grandfather playing guitar in the little bar next to the family home. Although his passion for country music has been within him since childhood, he ventured into other styles of music which developed in him a sense of versatility that is so evident in his music today: versatility in the way he writes his songs and also in the way he delivers them. The first collection of songs was released in Martys debut self-titled album with a number of tracks placing high on various country radio charts including a Scandinavian number 1 with Queen of my Heart. Martys new album, Out of the Blue, produced in Nashville by Gary Carter who worked with artists such as Randy Travis and Faith Hill, is a collection of 11 great songs all co-written by Marty himself. Songs that reflect the various musical influences that left such a blueprint on Martys unique style. Songs such as Mexican vacation and Made in Mexico reveal the artists Latin music influence while his island upbringing was the inspiration behind Paceville. The title track along with the ballads Baby, youve changed my life and A lonely star uncover Martys more romantic side with Call Colorado being the most laid-back song on the album, a deep contrast from the track Im available, which is a real country rocker with a touch of humor. The beauty of freedom is celebrated in So good to be free while the joy of redemption is delivered in the spiritual song Blinded. The track Teasin kind of woman completes this album with its raw honky-tonk sound. This is indeed a unique collection of songs that Marty is so excited to share with you all. Enjoy the ride! Musicians featured on this album are as follows: Guitars: Danny Parks (George Jones, Brooks Dunn, Toby Keith) Bass: Eric Normand (Toby Keith, Rhett

Adkins) Keyboards: Kevin Adams (Lee Ann Womack) Pedal Steel Dobro: Gary Carter (Randy Travis, Faith Hill) Fiddle: Hoot Hester (Hank Williams Jr., Alabama, Conway Twitty) Backing Vocals: Mike Lusk (Loretta Lynn), Mica Roberts (Toby Keith) Daryle Singletary (Major Country artist)
