Original rest and relaxation mood music conveyed delicately on the piano with a special touch and sensitivity. 13 MP3 Songs EASY LISTENING: Mood Music, EASY LISTENING: Background Music Show all album songs: Stop And Smell The Roses Songs Details: My name is Phil Perdue and I grew up on a farm on the eastern shore of Maryland. I became interested in the piano at an early age and began to teach myself to play. I attempted to take piano lessons but it didn't work out because I wanted to play my way and not conform to exercises and the reading of music. Since I was very busy on the farm and did farm with my father until he passed away, I did not spend a lot of time just playing piano but instead, played keyboards in a local band on weekends. I always wanted to play solo but did not feel comfortable with that until 2004, when I took a job at the piano in a restaurant. I began to love playing the piano more than ever. In the band, there were a lot of lost notes in all the noise, but when I played the piano in a quiet restaurant setting, every note counted. I began to love this concept. I truly love playing original and spontaneous music. This album, "Stop And Smell The Roses", consists of original songs dedicated to my lovely wife, Krista. I hope you like these compositions.
