Gypsy meets Middle Eastern, Pop, and Classical 9 MP3 Songs WORLD: Eastern European, WORLD: World Fusion Details: "Full Moon" is the exciting new album from guitarist Robert Sequoia, featuring violinist Teodoro and other fine Santa Fe musicians. This album stands apart from Sequoia's previous recordings with its percussive up-tempo variety of ethnic world-beat influenced music. Robert Sequoia began his creative journey as a very young visual artist. After hearing the great Spanish classical guitarist Carlos Montoya in concert, he was inspired to express his vision through music. Sequoia's compositions convey an emotional honesty and sensitivity rarely found in contemporary music. His unique style varies from heart-moving ballads with beautiful, time-enduring melodies, to upbeat, world-influenced compositions. Audiences are consistently inspired by the soothing, harp-like quality of Robert Sequoia's guitar playing and his delicate, fluid touch. The son of second-generation immigrants, Robert's musical roots go back to his family lineage of Romanian musicians. Sequoia currently lives in Santa Fe, New Mexico, U.S.A., where he continues to record and produce his music for films, television and live performances. 2000 Cross Roads Music Magazine Finalist -Best Acoustic Instrumentalist 1994 N.M.
