

## Mp3 Savoir Faire - Sex Magick

[DOWNLOAD HERE](#)

Freaky rock 'n' soul 15 MP3 Songs URBAN/R&B: Rhythm Blues, ROCK: Glam Details: SAVOIR FAIRE's long awaited 2nd album, "SEX MAGICK", is NOW AVAILABLE at AMOEBA (Hollywood)..... "Sex Magick" review by: Red-Light Magazine (Vanessa Ichinois) "Savoir Faire ascended from an urban, trashy abyss; an entertainer who has an honest, true, take-me-as-I-am-or-leave-me-alone attitude. His guitar work is liquidy and jagged while it rips, rends and caresses all at the same time. His semi-raspy voice wraps itself around a lyric like an undernourished anaconda around a corpulent A&R rat. The music of Savoir Faire rages right on up with a bubbling, irreverent, luscious sound. He's got a heart full of funk. Indulge." Sex Magick review by: URBAN NETWORK MAGAZINE (A. Scott Galloway) volume 16...number 4 "This ni\*\*a STILL aint got no home training"! Earnin up a rep the old school way - with homemade CDs he slings from the trunk of his hooptie on Sunset Boulevard - Savoir Faire spins tales of booty, softcore pimp-downs and the freaks that come out at night for "Street Vocations." Take the monologues of early Bobby "The Poet" Womack, the underground salaciousness of 'Dirty Mind/1999' -era Prince, the cartoon mind of William "Bootsy" Collins, the do it yourself spirit of Blowfly and the eclectic musical voodoo of a brutha who has worked in all of L.A.'s major used record Stores, and you have a working sketch of where this notorious West Coast character is coming from. This time around, our hero has a fetish for hypnosis...taking control of the minds of women to coax forth the wantonness within (cue sitar and "Twilight Zone" guitar). Titles like "Lady Cop", "Pussycat Burglar", "You Cum First", "She Likes Ass Slappin'", "Strippers Need Love Too" and (the eternal question) "Have You Ever Been Sexperienced" say it all. On a brief detour from all thangs "Sleazy," Savoir digs up rapper Domino for the nugget "Homies" and closes out the whole sha-bang with the spaced out instrumental "Earth is The Ghetto of The Universe." Proudly kickin' Lo-Fi" for your Hi-Fi, Savior Faire isn't the slickest singer you'll ever hear, but

he's always nervy and entertaining as hay-yell! OH YEAH! Almost forgot,SAVOIR FAIRE Use to be in a group called The Fancy Lads when he was just a baby-child. A couple of songs from that period(FRUSTRATION,L.A.) will end up the next album which will be called DIAL "S" FOR SAVOIR.
